

## Thomson ONE Investor Relations

### Thomson Financial IR Services:

Your bridge to the institutional investment community through:

- Industry-leading platforms
- World-class information
- Most practiced professionals
- Proven best practices

### The Integrated Workflow Solution Tailored to your Needs

As investor relations professionals, you are challenged to master knowledge of new investment vehicles, manage shareholder activism, and monitor the impact of immediate access to information via the Internet—all while attracting and retaining investment capital, addressing evolving regulatory requirements and delivering solid results.

Thomson ONE Investor Relations is your IR dashboard, providing you with integrated access to the full breadth and depth of content, analytics and functionality that you need to maximize your daily efforts—all from a single Web-based solution accessible from [www.thomsonone.com](http://www.thomsonone.com):

- Keep a pulse on the market through quotes, charts, news and First Call research and estimates.
- Monitor your peers.
- Track and analyze ownership information to identify shareholder trends and changes.
- Identify and target prospective institutional investors.
- Schedule and monitor events using StreetEvents.
- Manage your activities with our sophisticated contact management system.
- Measure the effectiveness of your overall IR and communications efforts.

### Thomson ONE Investor Relations Benefits:

- **Single Login:** Thomson ONE Investor Relations supports every step of your daily workflow, from gathering market information to strategically attracting new investors, without requiring multiple logins to disparate applications and databases.
- **Web-Based Customizable Solution:** Access Thomson ONE Investor Relations from anywhere, at any time. The solution is customizable, making it easy to create and navigate a personalized workstation that best suits your workflow and information needs.
- **Unparalleled Breadth and Depth of Content:** Only Thomson ONE Investor Relations offers integrated access to world-class information, including First Call, StreetEvents, Worldscope, Thomson Financial News and more.
- **Superior Client Service:** Rely on our outstanding client service team to answer your questions and help you optimize your use of Thomson ONE Investor Relations through comprehensive training.

## Base Package:

Thomson ONE Investor Relations is a scalable solution designed to evolve with your needs. The following features are available to all users:

**Delayed Market Data:** Keep a pulse on the market by tracking delayed quotes and other data items for your company and peers. You can select from hundreds of data items, including volume, market cap, last price change, and more.

**Thomson StreetEvents:** Track and monitor events, including corporate earnings announcements, conference calls, webcasts, sell-side conferences and analyst meetings. Also track which institutions have added your company to their StreetEvents Watchlist.

**Charting Capabilities:** Visually reveal the historical price trend of one or more securities going back up to 30 years. Also compare the securities to select indices and plot additional indicators for more comprehensive analysis.

**Company Profiles:** Research your competitors by accessing the company name, address, sector, industry, exchange, ticker symbol, CUSIP and other identifiers, as well as a description of their business, key executives, and upcoming earnings release dates.

**Short Interest Table & Charts:** Track changes in the monthly short positions and short interest ratio for a security to gauge investors' perceptions on the direction of the stock price.

**First Call Mean Estimates:** View the mean forecasts for a variety of time periods on one page for any of the more than 20 available measures.

**Symbol Book:** Quickly look up tickers and trading instruments.

## Packages & Features

Complement the core Thomson ONE Investor Relations features with additional modules that provide enhanced content and functionality:

### Market Monitor

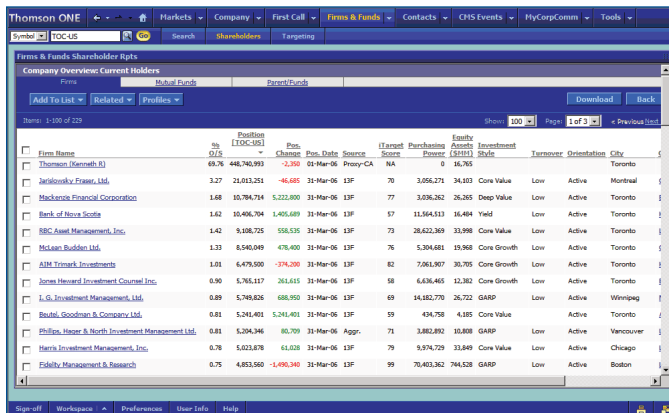

Stay ahead of your competitors and understand where the market is headed with real-time quotes, news, detailed listing of corporate actions, and security specific exchange activity to help you identify where the activity lies, the volume breakdown, and on which side of the market (bid/offer) the trade occurred. Be alerted to changes in market data based on the criteria you define, and calculate the total return on an investment based on the purchase date, sell date and number of shares purchased.

Monitor and analyze market data with real-time streaming data.

### Ownership & Contacts

Identify and monitor shareholders of your security, peers, and/ or industries; and monitor the money flow driving the market by tracking buying and selling activities in select sectors and peer groups. Also leverage Thomson's vast professional investor database, and conduct sophisticated searches to generate targeted lists to reach current and potential shareholders.

Develop specific reports by top, current shareholders and cross-ownership of selected peer groups.

## Client Quote:

"The Thomson ONE platform provides the same information that the institutional investment community uses including First Call, StreetEvents, and Thomson Financial News. This enables us to better understand how current and prospective investors view our company and measure the effectiveness of our IR strategy."

*Christopher Powers, Investor Relations Analyst, Raytheon Company*

## First Call

Leverage value-added links to the institutional investment community to maximize your visibility. Know what sell-side analysts are saying about you, your industry, and your competition; monitor your peers with access to detailed Worldscope financial reports; screen for companies that meet your specified criteria to identify emerging competitors; and conduct in-depth analysis of the available data using our Excel Add-In.

## Contact Management System & Blast Messaging

Create and maintain your own contact records and group lists in a centralized location; gauge how successful your IR efforts have been based on past interactions and ownership data of your targeted contacts; and deliver targeted and custom communications to key constituents via e-mail or fax directly from Thomson ONE Investor Relations. Track your results through online activity reports.

## Event Research

Monitor peers and sell-side sentiment through StreetEvents briefs and transcripts of competitor and broker events. Stay abreast of the corporate guidance being issued by your competitors and use StreetEvents Delta Reports to quickly view all changes, additions, and deletions in the text of annual (10-K) and quarterly (10-Q) SEC Filings.

The screenshot displays the Thomson StreetEvents interface for an earnings conference call transcript. The title bar reads "THOMSON STREETEVENTS" and the main window title is "ATY - Q1 2006 ATI Technologies Earnings Conference Call". The interface includes a media player at the top with playback controls and a "Stopped" status. Below the media player is a search bar and a "Search" button. The main content area is divided into several sections: "EDITED BRIEF", "FINANCIAL DATA", "PRESENTATION SUMMARY", and "FINAL TRANSCRIPT". The "FINANCIAL DATA" section lists key metrics for 1Q06 and 2Q06. The "PRESENTATION SUMMARY" section includes a list of business highlights. The "FINAL TRANSCRIPT" section contains the full text of the earnings call, including an overview, financial data, and a presentation summary.

**Overview**  
For 1Q06, the Co. reported revenues of \$591m. Net income for 1Q06 was \$7.6m or \$0.03 per share, diluted. The Co. expects 2Q06 revenues to increase by approx. 8-12% relative to 1Q06. 2Q06 OpEx is expected to increase just over 5% relative to 1Q06.

**Financial Data**

A.	1Q06 revenues = \$591m.
B.	1Q06 net income = \$7.6m
C.	1Q06 EPS = \$0.03 per share.
D.	1Q06 GA percentage = 28.7%.
E.	2Q06 expected revenues = increase by approx. 8-12% relative to 1Q06.
F.	2Q06 expected OpEx = increase just over 5% relative to 1Q06.

**Presentation Summary**

Business Performance (Q1)

**Business Highlights**

1. The Co. had a very strong qtr. on many metrics.
2. ATI's topline revenue growth came in at \$591m, a 26% growth sequentially.
3. All product lines grew in 1Q06 vs. 4Q05.
4. The chipset business grew almost 200% YearY and more than 30% sequentially.
5. The handheld business had a record qtr. with over 21m units shipped.
6. The desktop GPU was in a transition qtr. and still grew 35% over 4Q05.

**FINAL TRANSCRIPT**

product lines grew in Q1 as compared to Q4.

Our chipset business grew almost 200% year-over-year, and more than 30% sequentially. Our handheld business had a record quarter, with over 21 million units shipped. Our desktop GPU was in a transition quarter and still grew 35% over Q4. And our DTV business delivered record revenues in a continued growth business.

In late August, we laid out a focused plan of near-term priorities for our business to return to the growth and profitability expected for ATI. And we made great strides in the quarter on each of these five areas, and I'd like to highlight some of those.

First, return to GPU leadership. ATI delivered industry-leading performance GPUs in Q1, when we announced the X1000 family in early October: three very distinct 90-nanometer GPUs, and all chips and board SKUs reached volume shipments in the quarter. That X1000 XT is the clear performance leader for any part shipping in volume in the enthusiast segment of our business. We shipped tens of thousands of these during Q1 as well and the sell-through has been fantastic. The acceptance is no surprise, as both reviewers and consumers alike have embraced this part. Hardware Info says that this new chip is a technology masterpiece.

One true indication of the X1000's horsepower is its ability to overlock. Last month, an independent tester overclocked the X1000 and broke the 1 GHz barrier, the first time ever on a GPU.

Our X1600 is defining new levels of performance and image quality for the all-important performance mainstream segment of the market, a key volume and brand segment for our industry. And the X1600 is winning over the channel, with a combination of performance and Avivo Video.

The X1300 is expanding ATI's leadership in the mainstream segment as well. One online reviewer said, "in our opinion, ATI hit a bull's eye with this new product, so we're going to give it the Gold Award. That's a seal for the low-end iGA category." This was Hardware Secrets.

## iTarget

Enhance your targeting effectiveness with Thomson's proprietary quantitative solution, designed to help you quantify the purchasing power of each institutional investor and how a particular stock would fit with their portfolio based on select characteristics.

## Why Partner with Thomson Financial Corporate Services:

With 15 years of experience serving the Investor Relations needs of more than 4,500 corporations worldwide, partner with Thomson and leverage our significant investments in content, people, and technology to navigate today's dynamic markets.

- Understand and explain what's driving valuation relative to your peers and the overall market.
- Identify and target potential investors, complete with a comprehensive outreach program.
- Predict the reaction of your shareholders to corporate and market changes.
- Implement reliable, effective and compliant communications programs to reach and engage your internal and external audiences.
- Measure the effectiveness of your overall IR efforts.

## Optimize and Analyze your IR Communications Efforts

Our Webhosting and webcasting clients can measure the impact of their event by linking attendees to their shareholder base using Thomson ONE Investor Relations, which provides ownership profiles and other detailed information on institutional firms who accessed the event via a webcast or StreetEvents transcript. Also use Thomson ONE Investor Relations to know who accessed your event through your Web site and conference call.

Compare your Web site traffic and webcast participation against a selected industry, market cap or market index.

The screenshot shows the Thomson ONE StreetEvents Interest dashboard. It displays a table titled 'StreetEvents Watchlist following - The Thomson Corporation'. The table lists various institutional investors with columns for 'FIRM NAME', 'USERS', 'POSITION', 'EQUITY ASSETS', 'INVESTMENT STYLE', 'CITY', 'TARGET SCORE', and 'TARGET PURCHASE POWER'.

FIRM NAME	USERS	POSITION	EQUITY ASSETS	INVESTMENT STYLE	CITY	TARGET SCORE	TARGET PURCHASE POWER
